

# Coastal Communities & Neighborhoods

Purpose: Enable residents to live safely and securely, reflect the surrounding coastal environment, and include walking and biking connections.

- Planning area neighborhoods in the Comprehensive Plan, such as Shore Drive, North End, and Sandbridge would continue to be guided by adopted plans.
- Community Hubs would be collaboratively located and planned.
- The City would plan for and build walking and biking paths between neighborhoods and Community Hubs
- New transition zone policies and regulations would be created to protect neighborhoods adjacent to centers and corridors.
- **Shoreline and coastal management policies** would be maintained and updated to promote neighborhood stability.
