Fencing on 3/4 houses has been demolished and questions have formed about who to call for regulation. What are the restrictions on height, material, and measurements in general? Fences were suppose to be created the same before the tornado and they were hand made. Kelsey wants to be contacted about these regulations.

not unless there is doggy daycare option to get them out of the house on days of roof replacement, repairs on home, fence replacement and deck replacement as they can't go in their yard due to no fence and holes in pool cover and all the repairs are stressful on them. This is low priority of course and half kidding. So many have lost so much more:( thanks for everything
